## **1 INTRODUCTION AND APPLICABILITY**

- 1.1. It is essential that Hambleton, Richmondshire and Whitby Clinical Commissioning Group (The CCG) implement appropriate systems to ensure that personal confidential information and commercially sensitive information is held and processed in a confidential and secure manner. In order to ensure that appropriate controls are maintained the CCG must implement a system of reviews to assess controls in place and compliance to these controls.

## **2 ENGAGEMENT**

This policy has been developed based on the knowledge and experience of the Information Governance team. It is derived from a number of national codes and policies which are considered as best practice and have been used across many public sector organisations.

## **3 IMPACT ANALYSES**

### **3.1 Equality**

An equality impact screening analysis has been carried out on this policy and is attached at Appendix 1.

As a result of performing the analysis, the policy, project or function does not appear to have any adverse effects on people who share *Protected Characteristics* and no further actions are recommended at this stage.

### **3.2 Sustainability**

A sustainability assessment has been completed and is attached at Appendix 2. The assessment does not identify and benefits or negative effects of implementing this document.

## **4 SCOPE**

This policy requires that the CCG reviews both general controls in place within their departments to protect Personal Confidential Data (PCD) being processed, including within specific information systems, and map and review data flows on a regular basis. The responsibilities in respect of information confidentiality audits are as follows:

### **Caldicott Guardian**

The Caldicott Guardian is responsible for monitoring incidents and complaints in relation to confidentiality breaches within the CCG. The Caldicott Guardian will receive reports of potential or actual incidents identified during the audits undertaken in order to monitor investigations as appropriate and ensure appropriate corrective action taken.

### **SIRO**

The SIRO are both responsible for monitoring risks in relation to information security and should receive reports of audit results to monitor weaknesses identified and ensure corrective action is implemented

## **IG Lead**

The CCG Information Governance Lead will co-ordinate with the CSU Information Governance Team to ensure a system of CCG departmental audits on an annual basis. These audits may involve some or all of the audit mechanisms detailed in section 5.2.

## **Head of Departments/ Team Leaders**

Heads of Departments and Team Leaders will be responsible for ensuring that their staff are aware of their responsibilities with regard to confidentiality and information security. They must also staff understand how to report actual or potential confidentiality breaches.

Additionally Heads of Department and Team Leaders are responsible for ensuring that staff have completed their statutory and mandatory training and any additional training modules as appropriate to the staff members job role identified during staff appraisals.

They will be responsible for completing confidentiality audits as required and implementing recommended corrective actions identified within agreed timescales.

## **Information Asset Owners**

Information Asset Owners (IAO's) are responsible for ensuring that access to PCD is secure and strictly controlled within their area.

Access to PCD must be allocated on a strict need to know basis, by those who require that access in order to perform their duties, appropriate documented authorisation must be obtained to demonstrate the need to know prior to access being given.

Access to information assets must be monitored in particular where access is attempted where it has previously been denied.

## **IM &T Services**

IM&T services will be responsible for ensuring that confidentiality audits relating to central IT systems are conducted and corrective actions are identified and implemented within agreed timescales.

## **All Staff**

Staff should ensure that they comply with the access rights allocated to them and not attempt to exceed these rights.

Staff should also be aware that it is their duty to report potential weaknesses in information security and potential or actual breaches to confidentiality.

Staff will be responsible for complying with confidentiality audits conducted within their area and complying with agreed recommendations resultant from the audits

## **5 POLICY PURPOSE & AIMS**

### **5.1 Purpose**

Information Asset Owners, Departmental Heads and Team Leaders should monitor information security within their areas on a continual basis, in order that irregularities are identified and corrective action implemented.

All potential and actual breaches should be reported immediately via the corporate incident reporting system, and to the organisations Caldicott Guardian.

Additionally regular audits must be undertaken to review information security controls in place and compliance to these controls.

### **5.2 Mechanisms for Auditing Information Security Controls**

The Information Governance Team will develop an audit plan to co-ordinate work as appropriate to ensure the following are undertaken as necessary.

#### **a. General Information Security/ safe Haven Procedures**

It is essential that all departments have appropriate information security controls in place to protect PCD at all times. The security and transmission of confidential information/ safe haven standard includes an audit checklist to enable IAO's and department heads to record the assessment of controls in place.

#### **b. Review of Information Asset Register and associated Data Flow Maps**

Information asset owners must on a regular basis review their information asset register to ensure that all information assets are recorded and the associated information flow maps have been documented and risk assessed.

#### **c. Review of Network Folders and individual systems access.**

Access of staff to network folders should be reviewed on a regular basis, to ensure that leavers have been removed and access allocated is appropriate to the job role. This will require reports of access levels to be produced via the IM&T department and departmental managers/team levels to review access levels set.

This process also needs to be undertaken for specific systems, to ensure that access is allocated to staff on a need to know basis and that all live users are current employees.

#### **d. Failed Log-ins**

Periodically and upon the suspicion of attempted unauthorised access to network folders or an individual system, checks should be made to assess whether unauthorised access has been attempted or obtained. The IM&T Department would need to assist in the production of reports enable these assessments to be undertaken.

**e. Monitoring Incidents**

All Information Security and Confidentiality incidents reported must be monitored and investigated by the Information Governance Team this includes potential and actual incidents identified as a result of any audit work undertaken.

**5.3 Audit Reporting and Follow-up**

A formal report will be produced detailing the outcome of the audit, recommendations, corrective action and completion timescales agreed.

These reports must be provided to both the Caldicott Guardian and the SIRO for monitoring purposes.

Arrangements should be made to follow-up corrective action agreed to ensure appropriate implementation and that where necessary system documentation and procedures are amended accordingly.

All risks identified must be reported as appropriate on the corporate risk register until such a time as appropriate corrective action is complete. All residual risks must remain on the corporate risk register for management consideration.

**5.4 Audit Closure**

Once the corrective action has been implemented and checked the audit can be formally closed.

**6 IMPLEMENTATION**

The policy will be disseminated by being made available on the intranet and highlighted to staff through newsletters, team briefings and by managers.

*‘Breaches of this policy may be investigated and may result in the matter being treated as a disciplinary offence under the CCG’s disciplinary procedure’.*

**7 TRAINING & AWARENESS**

Staff will be made aware of the policy via the Intranet.

**8 MONITORING & AUDIT**

Adherence to this policy will be monitored on an on-going basis and breaches may result in disciplinary procedures.

**9 POLICY REVIEW**

This policy will be reviewed in 2 years. Earlier review may be required in response to exceptional circumstances, organisational change or relevant changes in legislation/guidance, as instructed by the senior manager responsible for this policy.

1. Equality Impact Analysis	
<b>Policy / Project / Function:</b>	Confidentiality Audit Policy

Reasoning					

If there is no positive or negative impact on any of the Nine Protected Characteristics go to Section 7

## SUSTAINABILITY IMPACT ASSESSMENT

<b>Policy / Report / Service Plan / Project Title:</b>				
<b>Theme (Potential impacts of the activity)</b>	<b>Positive Impact</b>	<b>Negative Impact</b>	<b>No specific impact</b>	<b>What will the impact be? If the impact is negative, how can it be mitigated? (action)</b>
Reduce Carbon Emission from buildings by 12.5% by 2010-11 then 30% by 2020			X	
New builds and refurbishments over £2million (capital costs) comply with BREEAM Healthcare requirements.			x	
Reduce the risk of pollution and avoid any breaches in legislation.			x	
Goods and services are procured more sustainability.			x	
Reduce carbon emissions from road vehicles.			x	
Reduce water consumption by 25% by 2020.			x	
Ensure legal compliance with waste legislation.			x	
Reduce the amount of waste produced by 5% by 2010 and by 25% by 2020			x	
Increase the amount of waste being recycled to 40%.			x	
Sustainability training and communications for employees.			x	
Partnership working with local groups and organisations to support sustainable development.			x	
Financial aspects of sustainable development are considered in line with policy requirements and commitments.			x
